INSTRUCTIONS

- 1. This is not a test, so there are no right or wrong answers. We would like you to work quickly, so that you can finish.
- 2. All of the questions should be answered by marking one of the answer spaces. If you do not find an answer that fits best, use one that comes close. If you do not understand a question or cannot answer it, just leave it blank.
- 3. Your answers will be read by a computer. To help the computer read your answers, please do the following:
 - Use only a blue or black pen or pencil.
 - Carefully make heavy marks inside the ovals.
 - Completely erase any answer you wish to change.
- Make no other marks or comments on the answer pages. Any extra marks will cause the computer to make mistakes when it reads your survey.
- 4. Please mark only one answer, unless the directions tell you to mark more than one answer.

Survey Codes: The following numbers will be provided to you by the person giving this survey. Please write the numbers in the spaces below. Then fill in the ovals below that match those numbers.

CLASS ID						
0	0	0				
①	1	1				
2	2	2				
3	3	3				
4	4	4				
(5)	(5)	(5)				
6	6	6				
7	7	7				
8	8	8				
9	9	9				

This survey is about your health and things that affect it. It will tell us what you and other students do that may affect your health. About 96,000 students in Maine are being asked to take this survey. The answers you give will be used to create better health education and programs for young people like yourself.

DO NOT write your name on this survey. The answers you give will be kept secret. No one will know what you write. Answer the questions based on what you really do.

You may choose to take the survey or not take it. Your choice will not affect your grade in this class. You may not feel comfortable answering some questions. If you are not comfortable answering a question, just leave it blank. You can stop answering questions at any time you want.

You will not get in trouble for not completing the survey. It should not take you longer than this class period.

By taking this survey, your school and community may be better able to create programs that help you stay healthy.

Some questions ask about your background such as race and age. These will be used only to describe the types of students completing the survey. No answers will be used to find out your name. No names will ever be reported. The survey is research. This means that we will use everyone's answers to help us learn more about Maine students in general.

Be sure to read every question. Fill in the ovals completely. When you are finished, follow the instructions of your teacher.

THANK YOU very much for your help!
